

HORSE WARRIORS™

C.O.R.E.

Corporate • Organizational • Relationship Enhancement • Education

CORPORATE

Horse Warriors™ serves groups up to 12 people with leadership activities, relationship building, staff development and rejuvenation, all based in having FUN! Horses are excellent partners on the ground, under saddle, and out in their free roaming herd. Our herd members are all friendly, people-oriented teachers who are responsive, clear communicators. Whether your group needs a new vision, practice in presence, or some out-of-the-office down time, a day at the Diamondfly with the beautiful Horse Warriors™ herd can fill the bill!

ORGANIZATIONAL

Staff turnover, program changes, workplace dynamics and personalities all affect job performance and organizational stability. If your team could use a new perspective, some support for transitions, or a “thank you for your hard work,” we can provide an enjoyable, unforgettable and positive experience to help your give your business team a boost.

RELATIONSHIP ENHANCEMENT

Sometimes even the best partnerships wear a little thin. We can take those we are closest to, or work with regularly, for granted sometimes, and that can lead to problems. Come join us for some inspiring and challenging activities to rekindle some creative spark. You’ll end the day feeling noticed, appreciated, and grateful – and best of all, you’ll smell like a horse!

EDUCATION

Horses are some of the best teachers. Many of their interactions are applicable to ones we have with our peers, students and partners. Teachers enjoy our day programs, and are inspired to take the lessons they learn from the horses back into the classroom or staff retreats. Our education programs are perfect for teacher in-service days and pre-school-year team building. We also provide programs for teachers who would like to bring students to the ranch to work with the horses.

MISSION: Making the World a Better Place, One Relationship at a Time
